Furqan Sial

Data Analyst & Creative Strategist | Founder, FS Creative Corner
Lahore, Punjab, Pakistan

Summary

I am a Data Analyst and Creative Strategist driven by the philosophy: "Same Data. Different Thinking.". My expertise lies at the intersection of technical data science and high-end graphic design, allowing me to transform raw information into clear, actionable, and aesthetic brand narratives.Technical & Creative Toolkit:Graphic Design & Branding: Founder of FS Creative Corner, specializing in premium digital design and the development of professional brand identities.Data Programming: Proficient in Python and R Language for data manipulation, automated workflows, and building custom AI agents.Statistical Analysis: Advanced user of SPSS for conducting complex multivariate analysis, ANOVA, and experimental design. Analytical Insight: Experienced in the full data lifecycle—from auditing and cleaning messy datasets to presenting findings through professional data visualization.I am passionate about leveraging tools like Python and R to solve complex problems and provide data-driven creative solutions that help brands achieve a competitive edge.

Experience

FS Creative Corner

Founder & Creative Strategist
May 2024 - Present (2 years 6 months)
Lahore, Punjab, Pakistan

Leading a creative agency focused on the intersection of data-driven strategy and digital design. I specialize in building high-converting landing pages and using analytical thinking to optimize brand growth.
Key Projects & Expertise:
Web Development: Designed and launched a professional e-commerce platform and brand website.
Creative Direction: Manage end-to-end digital assets, including cinematic color grading and brand aesthetics.

Data-Driven Strategy: Apply statistical insights to refine marketing workflows and project delivery.
